Mr. Duane Gideon
Lennox Industries, Inc.
4460 112th Street N. W.
Des Moines, Iowa 50322

Dear Mr. Gideon:

As you requested during the October 3, 1990 telephone conversation with Ms. Tran Tran of my staff, we have assigned a provisional identification (ID) number to Lennox Industries, Inc. This provisional ID number is needed for the management of 3 55-gallon drums of wastes which you have identified as hazardous wastes F003 and F005 described at 40 Code of Federal Regulations (CFR) § 261.31. This letter is formal notification that the provisional ID number IAP000000812 has been issued to Lennox Industries, Inc., 4460 112th Street N. W., Des Moines, Iowa 50322.

This number is effective from October 8, 1990 through November 7, 1990 and is subject to the following provisions.

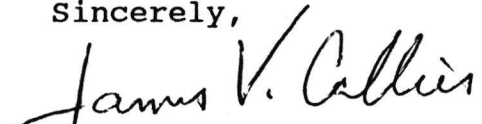

- 1) The enclosed EPA Form 8700-12, "Notification of Regulated Waste Activity," must be completed and returned by October 29, 1990 to the U. S. Environmental Protection Agency, Region VII, Resource Conservation and Recovery Act (RCRA) Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101, Attention: Ms. Tran N. Tran.
- 2) A hazardous waste manifest must be used during shipment.
- 3) The transporters and designated facility must all have EPA ID numbers and must be approved to handle the referenced hazardous waste.
- 4) A copy of the hazardous waste manifest, signed by the designated facility, must be returned to this office by

December 23, 1990 to verify that the waste was received by the designated facility.

5) A land disposal restriction notification/certification, as required by 40 CFR § 268.7, must accompany the shipment to the designated facility, if applicable.

Your cooperation is appreciated. If you have any questions concerning this letter, please contact Ms. Tran of my staff at (913) 551-7058.

Sincerely,

A handwritten signature in dark ink, appearing to read "James V. Callier". The signature is written in a cursive style with a large initial "J".

James V. Callier
Acting Chief, Iowa Section
RCRA Branch
Waste Management Division
